

AMENDED IN ASSEMBLY MAY 23, 2014

CALIFORNIA LEGISLATURE—2013–14 REGULAR SESSION

ASSEMBLY BILL

No. 2190

Introduced by Assembly Member Maienschein

February 20, 2014

An act to amend Sections 1601, 1602, and 1603 of the Penal Code, and to amend Section 5354 of the Welfare and Institutions Code, relating to crimes.

LEGISLATIVE COUNSEL'S DIGEST

AB 2190, as amended, Maienschein. Criminal defendants: gravely disabled persons.

(1) Existing law prohibits outpatient status for a person who is charged with and found incompetent on a charge of, convicted of, or found not guilty by reason of insanity of certain crimes, including, but not limited to, murder, mayhem, aggravated mayhem, or any felony involving death, great bodily injury, or an act which poses a serious threat of bodily harm to another person, until the person has actually been confined in a state hospital or other treatment facility for at least 180 days.

Existing law permits outpatient status, without first being confined in a state hospital or other treatment facility, for a person charged with, and found incompetent on a charge of, or convicted of, any misdemeanor or any felony other than those described above, or found not guilty of any misdemeanor by reason of insanity, if specified conditions are met.

This bill would exempt from this 180-day prohibition cases where the court finds a suitable placement, including, but not limited to, an outpatient placement program, that would provide the person with more

appropriate mental health treatment and the court finds that the placement would not pose a danger to the health or safety of others.

(2) Existing law establishes other conditions under which ~~these~~ *the above-described* persons are eligible for outpatient status, including, but not limited to, that both the director of the treatment facility and the community program director advise the court that the person no longer poses a danger and would benefit from outpatient status.

This bill would remove these conditions and would, instead, require that the court consider whether those advisements had been made, and would make conforming changes.

(3) Existing law, the Lanterman-Pertis-Short Act, authorizes the appointment of a conservatorship for a person who is gravely disabled as a result of mental disorder or impairment by chronic alcoholism. Existing law requires the officer providing the conservatorship investigation to investigate all available alternatives to conservatorship and to recommend conservatorship to the court only if no suitable alternatives are available, and to render a written report to the court. Existing law authorizes a court to order a person alleged, as a result of mental disorder, to be a danger to others, or to himself or herself, or to be gravely disabled, to be given an evaluation of his or her condition.

Existing constitutional provisions require that a statute that limits the right of access to the meetings of public bodies or the writings of public officials and agencies be adopted with findings demonstrating the interest protected by the limitation and the need for protecting that interest.

This bill would, when a court with jurisdiction over a person in a criminal case orders an evaluation of the person's mental condition, require the officer providing the conservatorship investigation to serve a copy of the report on the defendant or the defendant's counsel.

The bill would require the investigating officer, upon *the prior written* request of the defendant or the defendant's counsel, to submit a copy of the report to the court hearing the criminal case, the district attorney, and the county probation department. The bill would require that the conservatorship investigation report and the information contained therein be kept confidential and not be further disclosed to anyone without the prior written consent of the defendant. The bill would, with certain exceptions, require that after disposition of the criminal case, the court place all copies of the report in a sealed file. By increasing the duties of local officials, this bill would impose a state-mandated local program.

This bill would make legislative findings to the effect that any limitation on the public's right of access to the report is outweighed by the need to protect the privacy interests of the proposed conservatee and to prevent the chilling effect that would result from disclosure.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 1601 of the Penal Code is amended to
2 read:
3 1601. (a) In the case of any person charged with and found
4 incompetent on a charge of, convicted of, or found not guilty by
5 reason of insanity of murder, mayhem, aggravated mayhem, a
6 violation of Section 207, 209, or 209.5 in which the victim suffers
7 intentionally inflicted great bodily injury, robbery or carjacking
8 with a deadly or dangerous weapon or in which the victim suffers
9 great bodily injury, a violation of subdivision (a) or (b) of Section
10 451, a violation of paragraph (2), (3), or (6) of subdivision (a) of
11 Section 261, a violation of paragraph (1) or (4) of subdivision (a)
12 of Section 262, a violation of Section 459 in the first degree, a
13 violation of Section 220 in which the victim suffers great bodily
14 injury, a violation of Section 288, a violation of Section 18715,
15 18725, 18740, 18745, 18750, or 18755, or any felony involving
16 death, great bodily injury, or an act which poses a serious threat
17 of bodily harm to another person, outpatient status under this title
18 shall not be available until that person has actually been confined
19 in a state hospital or other treatment facility for 180 days or more
20 after having been committed under the provisions of law specified
21 in Section 1600, unless the court finds a suitable placement,
22 including, but not limited to, an outpatient placement program,
23 that would provide the person with more appropriate mental health
24 treatment and the court finds that the placement would not pose a

1 danger to the health or safety of others, including, but not limited
2 to, the safety of the victim and the victim's family.

3 (b) In the case of any person charged with, and found
4 incompetent on a charge of, or convicted of, any misdemeanor or
5 any felony other than those described in subdivision (a), or found
6 not guilty of any misdemeanor by reason of insanity, outpatient
7 status under this title may be granted by the court prior to actual
8 confinement in a state hospital or other treatment facility under
9 the provisions of law specified in Section 1600.

10 SEC. 2. Section 1602 of the Penal Code is amended to read:

11 1602. (a) Before any person subject to the provisions of
12 subdivision (b) of Section 1601 may be placed on outpatient status,
13 the court shall consider all of the following criteria:

14 (1) In the case of a person who is an inpatient, whether the
15 director of the state hospital or other treatment facility to which
16 the person has been committed advises the court that the defendant
17 will not be a danger to the health and safety of others while on
18 outpatient status, and will benefit from such outpatient status.

19 (2) In all cases, whether the community program director or a
20 designee advises the court that the defendant will not be a danger
21 to the health and safety of others while on outpatient status, will
22 benefit from such status, and identifies an appropriate program of
23 supervision and treatment.

24 (b) Prior to determining whether to place the person on
25 outpatient status, the court shall provide actual notice to the
26 prosecutor and defense counsel, and to the victim, and shall hold
27 a hearing at which the court may specifically order outpatient status
28 for the person.

29 (c) The community program director or a designee shall prepare
30 and submit the evaluation and the treatment plan specified in
31 paragraph (2) of subdivision (a) to the court within 15 calendar
32 days after notification by the court to do so, except that in the case
33 of a person who is an inpatient, the evaluation and treatment plan
34 shall be submitted within 30 calendar days after notification by
35 the court to do so.

36 (d) Any evaluations and recommendations pursuant to
37 paragraphs (1) and (2) of subdivision (a) shall include review and
38 consideration of complete, available information regarding the
39 circumstances of the criminal offense and the person's prior
40 criminal history.

1 SEC. 3. Section 1603 of the Penal Code is amended to read:

2 1603. (a) Before any person subject to subdivision (a) of
3 Section 1601 may be placed on outpatient status the court shall
4 consider all of the following criteria:

5 (1) Whether the director of the state hospital or other treatment
6 facility to which the person has been committed advises the
7 committing court and the prosecutor that the defendant would no
8 longer be a danger to the health and safety of others, including
9 himself or herself, while under supervision and treatment in the
10 community, and will benefit from that status.

11 (2) Whether the community program director advises the court
12 that the defendant will benefit from that status, and identifies an
13 appropriate program of supervision and treatment.

14 (b) (1) Prior to release of a person under subdivision (a), the
15 prosecutor shall provide notice of the hearing date and pending
16 release to the victim or next of kin of the victim of the offense for
17 which the person was committed where a request for the notice
18 has been filed with the court, and after a hearing in court, the court
19 shall specifically approve the recommendation and plan for
20 outpatient status pursuant to Section 1604. The burden shall be on
21 the victim or next of kin to the victim to keep the court apprised
22 of the party's current mailing address.

23 (2) In any case in which the victim or next of kin to the victim
24 has filed a request for notice with the director of the state hospital
25 or other treatment facility, he or she shall be notified by the director
26 at the inception of any program in which the committed person
27 would be allowed any type of day release unattended by the staff
28 of the facility.

29 (c) The community program director shall prepare and submit
30 the evaluation and the treatment plan specified in paragraph (2)
31 of subdivision (a) to the court within 30 calendar days after
32 notification by the court to do so.

33 (d) Any evaluations and recommendations pursuant to
34 paragraphs (1) and (2) of subdivision (a) shall include review and
35 consideration of complete, available information regarding the
36 circumstances of the criminal offense and the person's prior
37 criminal history.

38 SEC. 4. Section 5354 of the Welfare and Institutions Code is
39 amended to read:

1 5354. (a) The officer providing conservatorship investigation
2 shall investigate all available alternatives to conservatorship and
3 shall recommend conservatorship to the court only if no suitable
4 alternatives are available. This officer shall render to the court a
5 written report of investigation prior to the hearing. The report to
6 the court shall be comprehensive and shall contain all relevant
7 aspects of the person's medical, psychological, financial, family,
8 vocational, and social condition, and information obtained from
9 the person's family members, close friends, social worker, or
10 principal therapist. The report shall also contain all available
11 information concerning the person's real and personal property.
12 The facilities providing intensive treatment or comprehensive
13 evaluation shall disclose any records or information which may
14 facilitate the investigation. If the officer providing conservatorship
15 investigation recommends against conservatorship, he or she shall
16 set forth all alternatives available. A copy of the report shall be
17 transmitted to the individual who originally recommended
18 conservatorship, to the person or agency, if any, recommended to
19 serve as conservator, and to the person recommended for
20 conservatorship. The court may receive the report in evidence and
21 may read and consider the contents thereof in rendering its
22 judgment.

23 (b) Notwithstanding Section 5328, when a court with jurisdiction
24 over a person in a criminal case orders an evaluation of the person's
25 mental condition pursuant to Section 5200, the officer providing
26 the conservatorship investigation shall serve a copy of the report
27 required under subdivision (a) upon the defendant or the
28 defendant's counsel. Upon *the prior written* request of the
29 defendant or the defendant's counsel, the officer providing the
30 conservatorship investigation shall also submit a copy of the report
31 to the court hearing the criminal case, the district attorney, and the
32 county probation department. The conservatorship investigation
33 report and the information contained in that report, shall be kept
34 confidential and shall not be further disclosed to anyone without
35 the prior written consent of the defendant. After disposition of the
36 criminal case, the court shall place all copies of the report in a
37 sealed file, except as follows:

38 (1) The defendant and the defendant's counsel may retain their
39 copy.

1 (2) If the defendant is placed on probation status, the county
2 probation department may retain a copy of the report for the
3 purpose of supervision of the defendant until the probation is
4 terminated, at which time the probation department shall return
5 its copy of the report to the court for placement into the sealed file.

6 SEC. 5. Pursuant to paragraph (2) of subdivision (b) of Section
7 3 of Article I of the California Constitution, the Legislature finds
8 and declares all of the following:

9 (a) Any limitations to public access to conservator investigation
10 reports pursuant to subdivision (b) of Section 5354 of the Welfare
11 and Institutions Code as proposed by this act are necessary to
12 protect the privacy rights of the proposed conservatee pursuant to
13 Section 1 of Article I of the California Constitution.

14 (b) The interests in protecting the privacy rights of the proposed
15 conservatee in this situation strongly outweigh the public interest
16 in having access to personally identifiable information about the
17 person and his or her need for and access to mental health services.
18 Moreover, protection of the person's privacy ~~right is~~ *rights are*
19 necessary to prevent the chilling effect on access to needed mental
20 health services that would occur if the information were to be made
21 public.

22 SEC. 6. If the Commission on State Mandates determines that
23 this act contains costs mandated by the state, reimbursement to
24 local agencies and school districts for those costs shall be made
25 pursuant to Part 7 (commencing with Section 17500) of Division
26 4 of Title 2 of the Government Code.
